5-Year BSc/MD Program

Earn your Bachelor of Science (BSc) and Doctor of Medicine (MD) degrees in only five years with our accelerated pre-med to MD program.

VIJITHA MAHALINGAM, MD

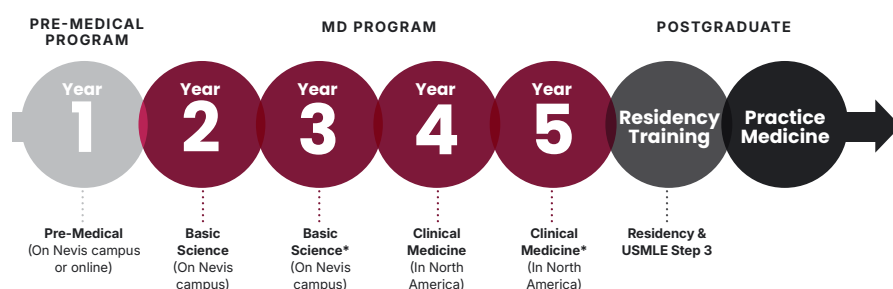

Resident Physician (Psychiatry), Queen's University (Ontario) | MUA Alum 2019

Practicing Doctors Start Here

The 5-Year BSc/MD Program enables students to finish a year of pre-medical coursework before progressing to the 4-Year MD Program. This program is well-suited for students who possess some postsecondary education and require comprehensive foundational science education before embarking on their MD degree journey.

Benefits of successfully pursuing this pathway include securing guaranteed admittance to the the MUA MD program upon successful completion of the one-year BSc program; achieving two degrees in only five years; gaining early experience with the challenging requirements of medical school; connecting with instructors who also teach in the MD program; saving time and money on more undergraduate tuition, fees and living costs; and avoiding the expenses and challenges associated with applying to medical schools separately.

Your Student Journey

*USMLE Step 1 occurs in Year 3 and USMLE Step 2 CK occurs in Year 5.

"When I moved into clinical rotations, and with the support that the school and staff had given me, I was well prepared for the transition to the United States. I had everything that I needed, either on-island or in the U.S. during the core rotations period and through electives, to help me be successful."

Sheldon Vogt, MD

Resident Physician (Preliminary General Surgery), Loma Linda University Health (California) | MUA Alum 2024

MUA Benefits

Personalized Support

Students benefit from our 5:1 student-to-faculty ratio and extensive support services.

93% Three-Year U.S. Residency Placement Rate¹

USMLE Success

Our commitment to academic success helps MUA students achieve strong results on required examinations.

1,800+ Graduates

For 25+ years, MUA has been the home of future physicians and healthcare leaders.

Living on Nevis

Study on beautiful and peaceful Nevis, the perfect place to help you focus, study and take full advantage of your medical education.

¹93% Three-Year Residency Placement Rate is the percentage of students attaining a residency position out of all graduates or expected graduates in 2023-24, 2024-25 and 2025-26 who were active applicants in the NRMP match or attained a residency outside the NRMP match.
