Doctor of Veterinary Medicine (DVM) Program

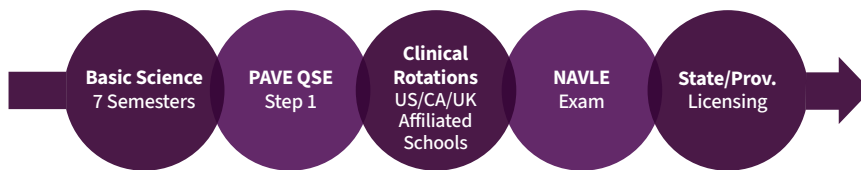

Where Aspiring Veterinarians Develop Their Passion
for Animal Health and Commitment to Care.

BREANNA CLOONEY, DVM

Director at Central Saanich Animal Hospital | SMUSVM Alum 2020

Student Journey

Commitment to Veterinary Care

St. Matthew's University School of Veterinary Medicine (SMUSVM), located on Grand Cayman, proudly prepares graduates for veterinary practice in the U.S., Canada and internationally. Our Doctor of Veterinary Medicine (DVM) program provides individualized support and early hands-on training, which help foster a smooth transition from campus to clinical rotations and then long-term career success.

Clinical Teaching Facility (CTF)

Veterinary students have the opportunity to utilize our immersive Clinical Teaching Facility, which serves as a bridge between theoretical knowledge and practical experience, helping to mold the practicing veterinarians of the future. At the CTF, students gain invaluable experience with a variety of animals, including horses, dogs, cats and more exotic animals such as turtles, blue iguanas and other aquatic life. The carefully curated and designed facilities include:

- Anatomy, surgery, clinical skills and medicine labs
- An exam room (where a rabies clinic is hosted)
- A necropsy room

The CTF helps SMUSVM deliver the hands-on veterinary medicine training that attracts students with a passion for animal healthcare.

Accessible Education

Eligible students from the U.S. and Canada may be awarded the U.S. and Canadian Academic Scholarship (up to \$65,000 USD). All new SMUSVM students are eligible for the Opportunity Grant (\$5,000 USD).

Our Benefits

Individualized Support

Students benefit from our dedicated faculty and extensive support services.

Up to \$70K USD in Scholarships¹

Eligible U.S. and Canadian students receive grants and scholarships to support their education.

Active Alumni Network

Join hundreds of SMUSVM graduates who have become practicing veterinarians.

Living on Grand Cayman

Study on picturesque and tranquil Grand Cayman, the right locale to help you focus on your studies and take advantage of your veterinary learning opportunities.

Close-Knit Community

Students form lasting connections and lifelong friendships thanks to the engaged student body, club opportunities and extracurricular activities.

¹T&Cs apply.

"I chose St. Matthew's University because of the smaller class sizes, the accelerated program, the island and that it's close to home with daily flights. I have appreciated feeling like a human and not a number."

Jessica Miller, SMUSVM Student

Our Mission

The core of our mission is the commitment to the success of our students. Our aim is to provide attendees from around the globe with extensive veterinary education and hands-on training.

St. Matthew's University School of Veterinary Medicine develops socially responsible veterinary doctors, who are skilled in the art and science of veterinary medicine.

Recognition and Membership

St. Matthew's University School of Veterinary Medicine is listed with the American Veterinary Medical Association (AVMA) and is a Member Institution of the American Association of Veterinary Medical Colleges (AAVMC).

Life on Grand Cayman

For U.S. and Canadian students, modern and accessible Grand Cayman will be familiar and quickly make you feel at home. The island offers many modern amenities and conveniences, including dining, transportation, entertainment and healthcare. It's a wonderful place to study and live.

About St. Matthew's University School of Veterinary Medicine (SMUSVM)

Founded in 2005, SMUSVM proudly provides education and training for curious, collaborative and caring future veterinarians. Our Doctor of Veterinary Medicine (DVM) Program allows students to graduate in just over three years, after 2+ years on safe and modern Grand Cayman (part of the Cayman Islands) in the Basic Science program, and then one year of clinical rotations in the U.S., Canada, the U.K. or another country. Thanks to our strong medical curriculum, dedicated faculty and individualized support, students achieve success on the NAVLE exam and have gone on to practice in the U.S, Canada and internationally.
