

WEBSITE REDESIGN · 2026

Five *concept directions* for your new website.

A fully responsive, professional, college-grade website redesign for BC Medical Spa. We've prepared five distinct visual directions — each suitable for an official college website and fully responsive across mobile, tablet, and desktop. Review each concept and select the direction that best reflects your institution.

01 Heritage
Classic college aesthetic — navy and gold, traditional symmetry, formal academic confidence.

02 Bloom
Soft modern — sage and warm rose, friendly editorial layouts, generous whitespace.

03 Campus
Photo-led editorial — forest green and terracotta, classic university with a modern edge.

04 Pulse
Modern minimalist — indigo and coral, geometric, contemporary design-school energy.

05 Atelier
Editorial luxe — charcoal and champagne, magazine-grade typography, premium positioning.

DESIGNATED PRIVATE TRAINING INSTITUTION

Advance your career in medical aesthetics.

Train with expert instructors in hands-on, accredited programs across cosmetic laser, skincare, and beauty enhancement. Year-round enrollment with StudentAid BC funding available.
